COMMUNICATION OF THE CHOSEN TOPIC

On a date that we will announce later, on the SID 2024 event website a form will be uploaded through which each participating team will communicate the chosen theme from the 6 announced subtopics, a short description of the project and other particularities.

From this moment, each participating team can start the development of the project with the mention that, on the day of the competition, 24 OCT 2024, they will receive from the technical commission, the specific requirements of the topic, requirements that will be taken into account in judging the projects.

Any technologies can be used to implement projects.

PROJECT PRESENTATION

- At the end of the competition, each team will have 15 minutes to present the project and then 5 minutes of Q&A.
- The presentation and sources will be uploaded before judging on GitHub.

JURY

The jury includes University teaching staff and representatives of companies participating in SID 2024.

24-25 October, Sibiu - RO

EVALUATION CRITERIAS – for CoDEMO 5.0 Innovation award

1. **Innovation:** Emphasize *creativity*, *originality*, and *feasibility* of the proposed research projects.
 2. **Alignment** with [CoDEMO](#) themes: projects should clearly demonstrate alignment with the core themes of **Resilience**, **Sustainability**, and **Human-Centricity**.
- **Resilience:** Projects should focus on enhancing the resilience of communities, systems, or infrastructure to overcome challenges such as economic volatility, natural disasters, or social disruptions. Ideas may include resilient strategies, crisis management frameworks, or collaboration-based resilience-building initiatives.
 - **Sustainability:** Projects should explore solutions to promote environmental sustainability, resource efficiency, and socio-economic development. Topics may include renewable energy technologies, sustainable strategies, circular economy models, or green infrastructure designs.
 - **Human-Centricity:** Emphasizing the importance of human-centred approaches, projects should aim to improve the quality of working, foster inclusivity, and address societal needs through innovative solutions. Examples include healthcare innovations, accessible technology designs, community engagement platforms, or training interventions.
